Photographer, documentary film-maker. Performing arts.

Collaborations:

"Kevin or Harry". Art collective, with Niko Hafkenscheid and Hedvig Biong. Together we seek to challenge the native qualities of documentary material, and seek to re-elaborate it and re-contextualize it for an audience. Hybrid forms of representation range from a stage or installation space, the editing of a book or the recording of an LP.

"El Laboratorio". Photo studio specialized in wet plate and historical photographic process. The studio is carved inside a cave in Granada, south Spain. I run it together with Hedvig Biong.
